The Better Figure 8

This figure 8 has a much more straight path compared to the one on page 115 of ~~the~~ Book one.

Comparing current, GPS, and target headings 03/08/2024

At the start, there is a slight offset and you can see this in the curve out from the dock. After the error update, the current, GPS, and target headings all overlap each other very closely.

Still have an issue with a negative heading somewhere.
